

inoSPLIT

Waste water systems

Waste water systems for eco-friendly cleaning of painters' and plasterers' tools and for treating dirty water in the workshop.

We make your construction site easier!

Waste water systems make your work easier!

inoSPLIT B100

The compact waste water system for tool cleaning and waste water treatment

Benefits at a glance

- Compact design
- Requires little space
- Simple operation
- Integrated washbasin
- Integrated roller washing device (roller size: 100 x 300 mm)
- System can be moved using 4 castors
- Low fresh water consumption

The **inoSPLIT B100** serves to clean painters' and plasterers' tools and to treat dirty water to make it safe for disposal.

The treated water is collected in a built-in vessel and can be reused for other cleaning processes thanks to a pump system.

The accumulating paint residue remains in the filter drawer and can subsequently be disposed of once dry in commercial waste similar to domestic waste.

Fresh water consumption is considerably reduced as the treated dirty water is reused.

Technical data

Operating voltage:	230 V / 50 Hz
Volumetric capacity:	100 l
Dimensions (D x W x H):	700 x 1,000 x 1,350 mm
Weight:	55 kg

Scope of delivery inoSPLIT B100

Item no. 10040790

- Housing made from polypropylene
- Washbasin
- Industrial water reservoir
- Roller washing device
- 4 castors
- Water spraying pistol with 2 m hose
- Agitator and pump integrated
- Power supply cable for agitator and pump
- Washing basket
- 1 x filter mat
- 1 x filter fleece
- 1 x splitting agent, 25 kg
- Operating instructions

inoSPLIT B150

The compact waste water system for tool cleaning and waste water treatment

Benefits at a glance

- Compact design
- Requires little space
- Simple operation
- Integrated washbasin
- Integrated roller washing device (roller size: 100 x 300 mm)
- Low fresh water consumption
- Additional drawer compartment, storage compartment and large dripping area

The **inoSPLIT B150** serves to clean painters' and plasterers' tools and to treat dirty water to make it safe for disposal.

The treated water is collected in a built-in vessel and can be reused for other cleaning processes thanks to a pump system.

The accumulating paint residue remains in the filter drawer and can subsequently be disposed of once dry in commercial waste similar to domestic waste.

Fresh water consumption is considerably reduced as the treated dirty water is reused.

Technical data

Operating voltage:	230 V / 50 Hz
Volumetric capacity:	100 l
Dimensions (D x W x H):	700 x 1,500 x 1,450 mm
Weight:	75 kg

Wherever you are, we're there, too.

Our customers work on a wide variety of construction sites and rely on machine technology from INOTEC and on our slogan:

We make your construction site easier!

Our products:

- Continuous and forced action mixers
- Delivery pumps
- Mixing pumps
- Machine technology for One-Way-Containers
- Silo & machine technology
- One-handed guns
- Cutters
- Special sanders
- Airless devices
- Waste water systems
- Floor processing machinery
